

Pink Rose
PIGMENTS PVT. LTD.

COLOR SOLUTIONS FOR SEED TECHNOLOGY

Pigment Preparations for Seed Coatings

High-performance aqueous dispersions delivering maximum color strength, easy dispersibility, and superior stability for modern agrochemical applications.

PINK ROSE PIGMENTS PVT. LTD.

SUPERIOR VALUE & PERFORMANCE

Aqueous pigment preparations engineered for modern seed coating systems

Pink Rose Pigments Pvt. Ltd. offers high-quality aqueous pigment preparations designed specifically to deliver maximum color strength with high solids content. Unlike traditional powder pigments, our liquid pigment preparations streamline production processes, providing faster, cleaner, and significantly more cost-efficient solutions.

Engineered for easy dispersibility and extended shelf life, they seamlessly integrate into diverse customer seed treatment formulations.

HIGH SOLIDS & COLOR STRENGTH

Formulated with optimal particle size distribution to yield maximum color intensity and coverage at reduced dosage rates.

EXTENDED SHELF LIFE

Advanced anti-settling dispersion technology guarantees long-term product stability and consistent viscosity.

EASY DISPERSIBILITY

Effortlessly incorporates into aqueous seed coating systems, minimizing processing time and operational energy.

REGULATORY COMPLIANT

Eco-friendly and safe aqueous preparations engineered to meet stringent agricultural and industry safety standards.

AVAILABLE PIGMENT RANGE FOR SEED COATINGS

PRODUCT GRADE	COLOUR INDEX	PRIMARY SHADE	KEY FEATURES	MASS TONE	TINT TONE
Pigment Red 2	C.I. 12310	Bright Red	Excellent Tinting Strength	MASS	TINT
Pigment Red 48:2	C.I. 15865:2	Deep Scarlet	Brilliant Shade	MASS	TINT
Pigment Red 49:1	C.I. 15630:1	Vibrant Red	High Cost Efficiency	MASS	TINT
Pigment Red 112	C.I. 12370	Vivid Red	Outstanding Lightfastness	MASS	TINT
Pigment Red 122	C.I. 73915	Magenta Pink	Premium High Performance	MASS	TINT
Pigment Yellow 1	—	—	—	MASS	TINT
Pigment Yellow 74	—	—	—	MASS	TINT
Pigment Blue 15:1	C.I. 74160 (Alpha)	Reddish Blue	High Stability Dispersion	MASS	TINT
Pigment Blue 15:3	C.I. 74160 (Beta)	Greenish Blue	Superior Chemical Resistance	MASS	TINT
Pigment Violet 23	—	—	—	MASS	TINT
Pigment Green 7	C.I. 74260	Deep Emerald Green	Excellent All-round Fastness	MASS	TINT

Note: Shade swatches are indicative visual references only. Actual shade, strength and performance may vary with formulation, substrate, and application conditions.

STREAMLINED PRODUCTION. COST-EFFECTIVE VALUE.

STREAMLINED PRODUCTION

Eliminates airborne dust hazards associated with pigment powders, ensuring safer, cleaner, and faster manufacturing.

COST-EFFECTIVE VALUE

Delivers much higher value compared to powder pigments through reduced yield loss and higher processing efficiency.
